ANYA

Watch the trailer at anyamovie.com!

Join applied cultural anthropologist and filmmaker Carylanna Taylor for a screening of her upcoming film, ANYA. Grounded in anthropology and genetics research, this sci-fi love story sparks conversations about biological and cultural diversity, research with vulnerable populations, genetics technologies, and ethics.

Sponsored by the Department of Anthropology, the Center for Ideas & Society, and Speculative Fictions & Cultures of Science

University of California, Riverside

Free and open to the public!
